## Dear Sports Scientists,

Welcome to Incheon!

It is my honor and pleasure to host 2014 Incheon Asian Games International Sport Science Congress in celebration of the 17th Asian Games. This international congress will provide a precious opportunity for the progress of sports science fields, for the prosperity of Incheon as a world-top cosmopolis, and also for the peace of Asian countries.

Especially, through the noteworthy presentations which focus on “Low-Carbon Green Sports Environment” and “Sports and Peace City, Incheon” this congress will serve as a momentum to develop many areas of Asian sports in the near future. In addition, I hope that these precious research results will be applied to all the sports science fields.

Finally, I appreciate everyone who has helped and supported for the success of this congress.

Thank you.

Lee, Jai-Hee

President  
Gyeongin National University of Education  
and Chairman  
2014 Incheon Asian Games International Sport Science  
Congress Organizing Committee
